

Anastasia Mosquito Control District

St. Johns County

1st Annual Science Summer Camp

Dear Parents,

I would like to first and foremost thank you for being part of the 1st Annual Anastasia Mosquito Control Science Summer Camp. Your child's safety and education are our primary concerns and we assure 110% efforts in successfully completing these tasks. Throughout the week of June 15-19, your child will be embarking on an amazing journey to learn the life of the insect world. We will be learning about mosquito biology, control, ecology & prevention.

A small registration fee of \$50 per child is required only to help cover the costs of supplies which are listed on the following page. Several of the supplies, your child will be bringing home to share with you and your family. Hopefully, you too, will also learn from this invaluable experience.

I invite you to attend a short meeting on the morning on June 15 at 8:00 a.m. to see what and how your child will be learning.

Thank you in advance for your time and efforts regarding this matter and I hope to meet you and your child in the near future.

Best Wishes,

Jonathan Adam Holt
